

Sidewalk Ramps to be made Accessible to the Disabled **(PW 2010.01 - Underway)**

The City continues its ongoing efforts to improve sidewalk access ramps (wheelchair ramps) for compliance with current ADA standards. The project uses federal funds from the Department of Housing and Urban Development. Two recent access ramp improvement projects PW 2008.01 and PW 2009.09 that reconstructed 67 sidewalk access ramps, is now completed. The next access ramp project PW 2010.01, is currently under design and will reconstruct 77 ramps.
